FORWARD IN FAITH

CONFERENCE

25 – 28 APRIL 2019, MENZIKEN AG, SWITZERLAND

**God's powerful promises lead you  
to thinking big.**

Forward in faith, because progress and personal development is needed.

## TOPIC

Our perception is based on our current point of view. If we change our position, our perspective also changes at the same time. God helps us to change our way of thinking and broadens our horizon. Step by step he leads us away from our old habits into a life of increasing freedom. Who do you truly think you are?

The Bible speaks of a new position in Christ. In contemporary words, this means recognising and experiencing a whole new reality. Discovering our identity in Christ is a developing process that leads towards a new quality of life. It increases our awareness and expresses itself in our manner and lifestyle.

For the first time our annual conference is held in the WTL venue in Menziken. As in previous years we trust that the Holy Spirit touches the hearts of men and women. The Messages will contribute to a sharpened view of God, fellow men and yourself. This could be the encounter of a decisive step further in your life. Be most welcomed!
